Effective 1/1/2009

| Description   | Product No.   | U.S. Sieve Mesh Size | MIL Profile      | Pricing   |
|---|---------------|----------------------|------------------|---|
| <b>Coarse/Medium</b>  | <b>#16/30</b> | <b>-10m +50m</b>     | <b>3.0 - 4.0</b> | <b>\$4.70 per 50 lb. bag</b><br><br><b>\$.09 per lb. bulk</b> |
| A versatile blend of sizes for depainting and rust removal on tanks, bridges, shipyards, with better scouring power for corners, pits and weld seams.   |               |                      |                  |   |
| <b>Medium/Fine</b>  | <b>#30/50</b> | <b>-14m +60m</b>     | <b>2.5 - 3.5</b> | <b>\$.09 per lb. bulk</b>                                     |
| This workhorse blend is a great general abrasive for most depainting and rust removal, as well as blasting concrete for aggregate exposure, shipyard work, structural steel and tanks, etc. Excellent for elastomeric coatings. |               |                      |                  |   |
| <b>Fine</b>   | <b>#50</b>    | <b>-25m +70m</b>     | <b>1.5 - 2.5</b> | <b>\$5.75 per 50 lb. bag</b><br><br><b>\$.11 per lb. bulk</b> |
| Remarkably fast and aggressive for all types of finer blasting requiring a smooth, clean finish. Makes a good surface for powder coating.   |               |                      |                  |   |
| <b>Super Fine</b>   | <b>#70</b>    | <b>-60m +90m</b>     | <b>1.5+</b>      | <b>\$6.90 per 50 lb. bag</b><br><br><b>\$.12 per lb. bulk</b> |
| Lighter duty fine blasting on substrates requiring minimal etching or profile such as aluminum or fiberglass. Excellent for cleaning welds and bolt heads, spot cleaning and restoration work.                                  |               |                      |                  |   |

**All Prices are F.O.B. TriVitro Corp., Kent, Washington  
and Include All Packaging**
