Mr. Donald H. Freas
TriVistro Corporation
18420 – 68th Street, South, #101
Kent, Washington 98032

Dear Mr. Freas:

We are pleased to inform you that your company's product, Vitrogrit VG #16/30, has been certified for permissible dry outdoor blasting until August 31, 2003. This certification is based on the presumption that you will pay the invoice for the testing which will be mailed to you. Failure to submit payment of the fee will result in termination of your certification. We will send you a copy of your test results after you have paid the future invoice.

Should you have any questions or need further assistance, please contact Ms. Kathryn Gugeler at (916) 327-1521. All correspondence should be addressed to me at the post office box above.

Sincerely,

Robert R. Leonard, Chief
Surveillance Branch
Compliance Division

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Website: <http://www.arb.ca.gov>.
